

YORTEC Inc.

Your technology @ our machining expertise.

1868 Beaulac, St. Laurent, Quebec, H4R 2E7

Tel: (514) 331-3660 Fax: (514) 331-9862

This is the era of technology.

We serve your demands anywhere around the world.

Quality, Service, and Better Prices are our main goals.

Customer satisfaction is guaranteed.

Our Expertise:

Qualified Personnel.

CNC – Precision Equipment.

Proven Methods.

company profile

YORTEC inc.

Yortec was formed in 1998 and provides precision machining as well as production engineering and project management services. Our expertise is in the machining and supporting processes. However, we can also coordinate a network of internal resources, subcontractors, and suppliers.

Yortec is positioned to serve the rapidly expanding telecommunications industry. The company's background, in-house contracts and bids in progress are focussed on expanding business in these segments.

Offices are equipped for engineering and production control with networked computer and integrated CAM system.

The machining center is supported by ancillary equipment for welding, grinding, etc.

The entire facility is equipped with an alarm system, modern lighting and material handling equipment.

Special industrial processes such as plating, painting, etc. are locally subcontracted to qualified suppliers.

CNC equipment

YORTEC inc.

CNC 1	2001 Hurco VMX30 MillinG CNC, 10000 RPM Spindle, 24 Tool Changer. 30" x 20" x 24"(z) travel.
CNC 2	2001 Hurco VMX30 MillinG CNC, 10000 RPM Spindle, 24 Tool Changer. 30" x 20" x 24"(z) travel.
CNC 3	2000 Hurco BMC3017 CNC Machining Center, 8000 RPM Spindle, 24 Tool Changer. 30" x 17" x 27"(z) travel.
CNC 4	1998 Hurco BMC4020 CNC Machining Center, 8000 RPM Spindle, 24 Tool Changer. 40" x 20"x 27"(z) travel.
CNC 5	1994 Bridgeport CNC Milling, 6000 RPM Spindle, 12 Tool Changer. 22" x 16"x 14"(z) travel.

- ✓ Milling Machine.
- ✓ Lathe.
- ✓ Band Saw Horizontal/Vertical 12"
- ✓ 16 Speed Drill Press.
- ✓ Quality Control Equipment (Calibrated).
 - Measuring tools.
 - Gauge Blocks.
 - Microflat and Height Gauge.
- ✓ Welding Machines TIG and AC MIG.
- ✓ Bench and hand grinders.
- ✓ PC Workstation with Ultimix Plus for 3D programming and AutoCAD™ 14.

other equipment

YORTEC Inc.

Yortec's design and manufacturing facility. 2000 square feet devoted to meeting your manufacturing needs.

With both CNC and conventional machining capabilities, for large or small jobs, Yortec is able to meet your needs.

personnel

YORTEC inc.

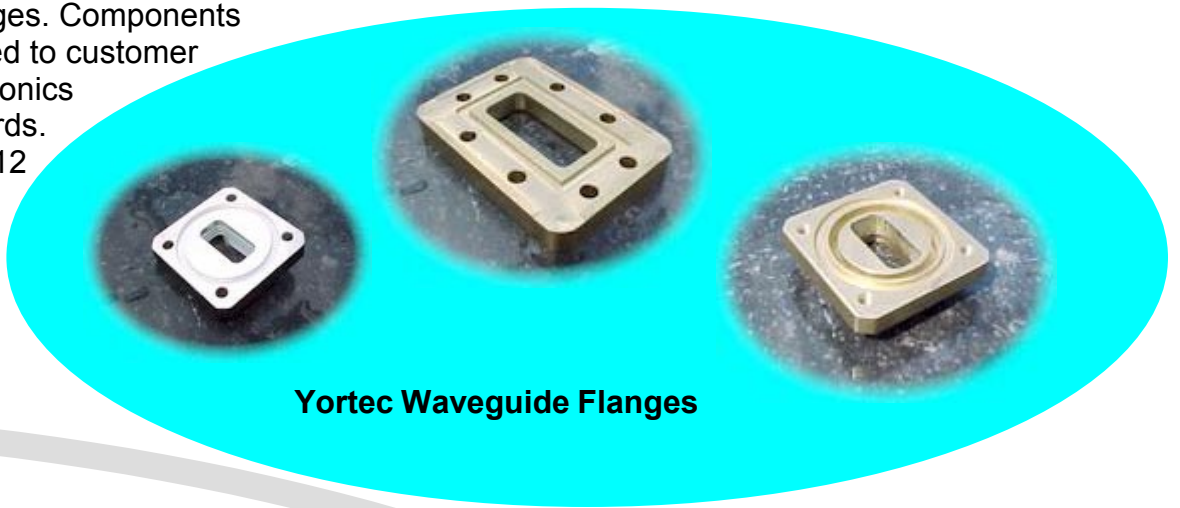

Yortec is owned and operated by J. Paiva. Mr. Paiva has over 15 years of experience in the field of precision machining for high – technology industry. His background includes:

- Supervising the CNC department of a communication electronics company. This included programming CNC with Ultimex 3, Mazartrol and Heidenhain on both machines and PC's.
- Planning, scheduling and loading a cluster of machines.
- Jig and fixture design to optimise use and speed of machines.
- High speed machining.

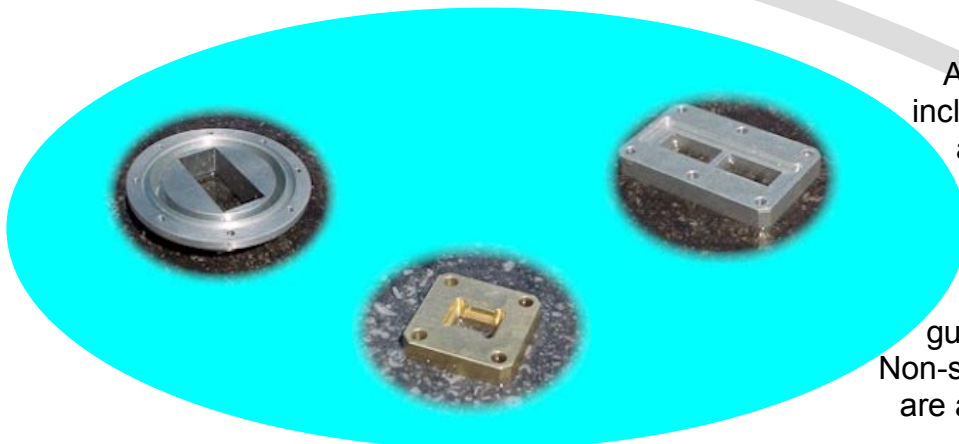

YORTEC Inc.

Yortec manufactures all types of waveguide flanges. Components can be machined to customer print or to electronics industry standards. Sizes from WR12 to WR750 are available in various types and materials.

Yortec Waveguide Flanges

Available types include American and European Standards with butt, through or flexible waveguide apertures. Non-standard types are also available.

YORTEC Inc.

Catering to the telecommunications industry, we understand the quality and tolerance requirements involved in machining housings for microwave filters, low noise amplifiers (LNA's), diplexers, solid state power amplifiers (SSPA's), receivers, etc. Small production runs or large, we are equipped to service your needs.

Yortec Machined Housings

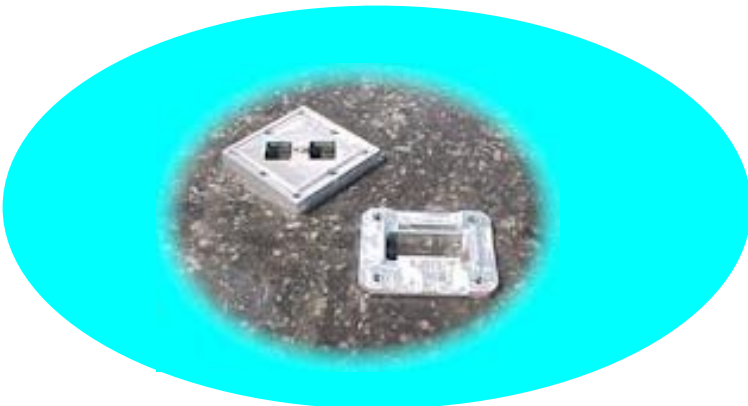

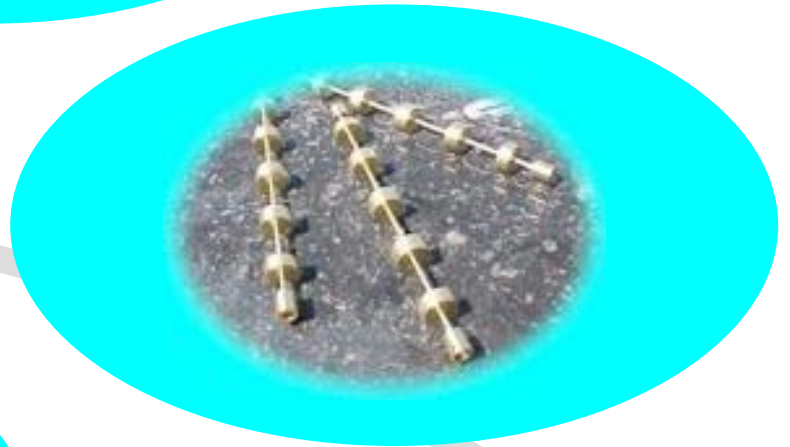

Housings can be machined from solid aluminum stock, extrusion, or brass bar. We can also machine raw castings.

YORTEC Inc.

At **Yortec**, we enjoy a good challenge! Bring us your precision machining requirements. Small lots, or large, we will deliver to your schedule and offer the quality and price you require to meet your goals.
